Highlights

1080p transmission
1080p transmission allows you to enjoy HDTV the way it was designed. The transmission is achieved by not compressing or compromising the signal in any way, allowing a 100% accurate image.

No signal loss
High quality construction and digital signal transfer ensure the absence of signal degradation, so you enjoy the best quality picture and sound.

HDCP Compliant
High-bandwidth Digital Content Protection (HDCP) allows you to play protected content media such as movies and concerts. It checks the signal to prevent piracy, allowing only legal copies of content to display.

Digital A/V on one cable
Conveniently eliminate cable clutter and enjoy uncompromised signal quality.
